- Enterprise and economic wellbeing

Pupils who follow land-based courses typically show higher value added results compared with classroom subjects.

In a recent independent survey (2011) of pupils parents from Thomas Alleyne's High School Land-Based subjects showed the highest level of customer satisfaction of all subjects taught.

Walton Hall special school use the farm as an important tool in behaviour management.

Many pupils have their taste of success on the school farm. OFSTED - Most importantly, the farm provides excellent opportunities for students' personal development. The farm can be a route to many experiences beyond their expectations.

The farm is used as a resource by all subjects. Oathall Community College Farm is used by every subject in the school's curriculum.
